Active Directory Lab: Creating a New Group

This guide provides step-by-step instructions on how to create a new group in Active Directory. It is intended for training and reference purposes.

🚀 Getting Started

Follow these steps to create a group in Active Directory.

1. Open Active Directory Users and Computers
- In the middle search bar, type **Active Directory Users and Computers** and select it.

2. Navigate to the Domain
- Under the **Skool.local** domain, double-click on the **Users** folder.

3. Create a New Group
- Right-click in the white space inside the **Users** folder.
- Select **New → Group**.

4. Configure Group Details
- Enter the **Group Name**:
